5:02 PM EST

Impacts and Timing:

- ✓ Strong, gusty northwesterly winds could bring down tree limbs Wednesday morning into the afternoon.

Event Summary

Winter event likely....

- ✓ Confidence is **HIGH** that this event will occur and **MODERATE** on expected impacts.
- ✓ Period of greatest impact: Late tonight into Wednesday morning.

Snow late tonight into Wednesday morning will accumulate 3 to 6 inches across the western Mohawk Valley, Green Mountains, Berkshires and Taconics. 1 to 3 inches will accumulate across the southern Adirondacks, Schoharie Valley and Catskills with an inch or two possible in the Capital District, upper Hudson Valley and northwest Connecticut. Snow will be heaviest just before daybreak Wednesday, then end later in the morning.

A light glaze of ice will occur over the southern Adirondacks and in the Connecticut River Valley in eastern Windham county this evening.

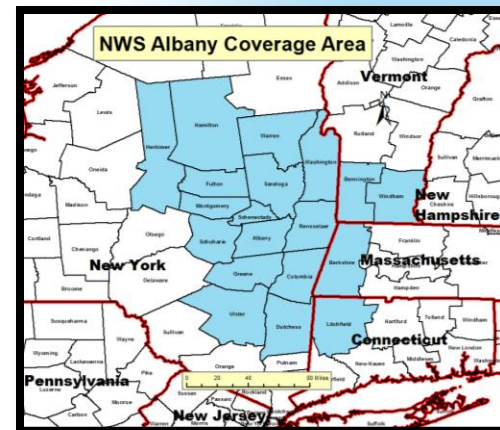

Northwesterly winds will gust to 40 to 45 mph Wednesday morning into the afternoon.
