Maximum Wind Gust
Valid: Through This Afternoon

Impacts and Timing:

- ✓ Wind gusts of 40 to 50 mph could down large tree limbs, a few large trees and produce isolated to scattered power outages.
- ✓ Strongest winds expected through this afternoon.

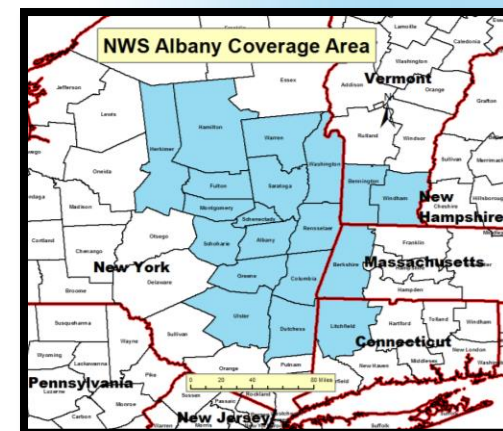

Wind and Winter Weather Advisories – Event Summary

- ✓ Confidence is **HIGH** that winds will gust greater than 45 MPH across most of eastern New York and western New England
- ✓ Confidence is **MODERATE** that storm total snow will accumulate 3-6 inches over southern Herkimer county
- ✓ West winds are expected to gust to up to 50 mph through this afternoon across eastern New York (excluding the Mid Hudson Valley) and western New England.
- ✓ Period of greatest impact (*wind*): **Through 3 PM**. Downed large tree limbs and a few trees are possible. Some isolated to scattered power outages may occur.
- ✓ Period of greatest impact (*snow*): **Through 1 PM**. Around an inch of additional snow, allowing for a storm total amount of 3 to 6 inches of snow across southern Herkimer County. Slippery travel conditions are expected due to snow and blowing snow.
