Graphic Created
February 23rd, 2019
4:43 PM EST

Impacts and Timing:

- ✓ Strong to damaging westerly winds will develop Sunday evening and last into Monday evening. Wind gusts up to 65 mph will be possible.
- ✓ The strong winds will likely down large tree limbs and some trees, resulting in scattered to widespread power outages.

5

Event Summary

**Wintry Mix tonight into Sunday morning, then strong to damaging winds
Sunday evening through Monday evening....**

- ✓ Confidence is **MODERATE-HIGH** that this event will occur and **MODERATE-HIGH** on expected impacts
- ✓ Period of greatest impact: Tonight into Sunday morning for wintry mixed precipitation and Sunday evening into Monday evening for strong to damaging winds.

Winter Weather Advisory (late this evening to Sunday morning): All of eastern New York and western New England.

Wintry mix will develop late this evening and transition over to plain rain by Sunday morning. Less than an inch of snow/sleet & a glaze to one tenth of an inch of ice will make for slippery travel and hazardous walking conditions.

High Wind Warning (Sunday Evening through Monday Evening): Most of eastern New York

High Wind Watch (Sunday Evening through Monday Evening): Dutchess & eastern Ulster County in New York, and all of western New England.

Strong to damaging westerly winds of up to 65 mph will likely result in downed trees & scattered to widespread power outages.
