Impacts and Timing:

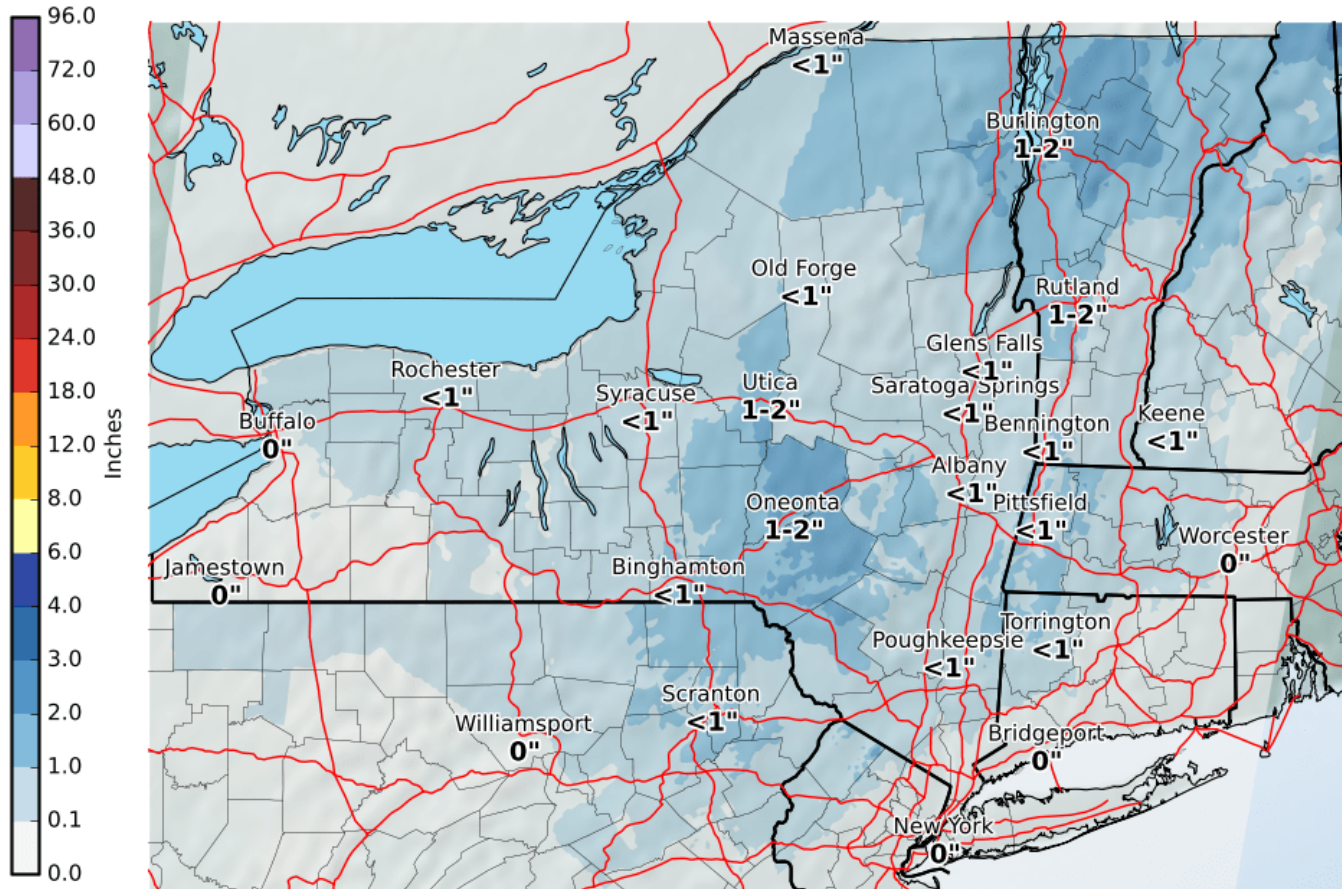

A light glaze of ice is possible through today, which could result in slippery conditions on untreated roads.

Additional light freezing rain will be possible this evening, mainly over the higher terrain north and east of Albany.

Event Summary

Freezing drizzle possible today. Wintry mix ending as snow tonight into Tuesday morning....

- ✓ Confidence is **MODERATE** that this event will occur and **MODERATE** on expected impacts
- ✓ Period of greatest impact: Tonight into Tuesday morning

Freezing drizzle is possible in eastern New York and western New England today excluding the Hudson Valley from the Poughkeepsie area up into the Capital District. A light glaze of ice is possible, which could result in slippery travel on untreated roadways.

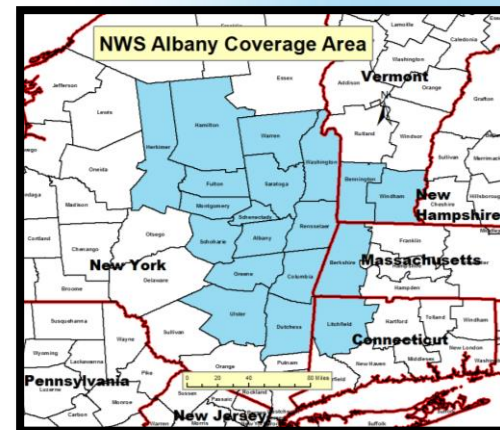

Precipitation will become steadier and heavier tonight. A wintry mix is expected, ending as snow especially over the higher elevations and areas. Some icing will be possible, as well as snow covered roads leading to hazardous travel this evening into Tuesday morning.
