Event Summary

Accumulating snow over the western Adirondacks and strong winds over portions of eastern New York and western New England....

- ✓ Confidence is **HIGH** that this event will occur and **MODERATE** on expected impacts
- ✓ Period of greatest impact: Tonight through Sunday

Rain will change to snow between 7–10 pm over the western Adirondacks and accumulate 3–7 inches through 1 pm Sunday west of Speculator and Indian Lake. The snow will result in slippery travel conditions and reduced visibility.

Wind will increase this evening with westerly gusts up to 50 mph possible 1 am to 7 pm Sunday in areas where the Wind Advisory is in effect. The gusts may blow around unsecured items and down tree limbs, resulting in scattered power outages.
