Maximum Forecast Wind Gusts

Valid Ending Sunday December 15th, 2019 at 7 PM EST

Graphic Created
December 15th, 2019
4:31 AM EST

Impacts:

- ✓ West winds 15-25 mph with gusts up to 50 mph expected today.
- ✓ Loose objects and tree limbs may be blown down.
- ✓ Scattered power outages possible.

Event Summary

**Additional snowfall possible across the Adirondacks early this morning...
Strong winds over portions of eastern New York and western New England....**

- ✓ Confidence is **HIGH** that this event will occur and **MODERATE** on expected impacts
- ✓ Period of greatest impact: Through the day today

An additional 1 inch of snow is possible, with total accumulation of 3 to 6 inches over the western Adirondacks, west of Speculator and Indian Lake. The snow will result in slippery travel conditions and reduced visibility.

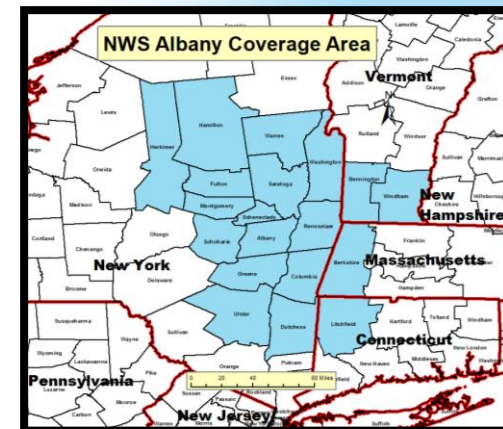

Winds of 15 to 25 mph, with gusts up to 50 mph possible through 7 pm today in areas where the Wind Advisory is in effect. The gusts may blow around unsecured items and down tree limbs, resulting in scattered power outages.
