

Potential strong weekend storm

Boston/Norton, MA

WEATHER FORECAST OFFICE

OVERVIEW:

There is increasing potential for a strong storm to develop across the mid-Atlantic region Friday night, then intensify as it moves toward the southeast New England coast Saturday. This storm has the potential to produce areas of heavy rain, strong winds at the coast, and snow, mainly in the higher elevations.

TIMING	▪ Saturday into early Sunday.	
HAZARDS & IMPACTS	▪ Wet snow, mainly in higher elevations of western and northern MA. ▪ Locally heavy rain, mainly in RI and southeast MA ▪ Strong winds along the coast; gales and very rough seas coastal waters	
FORECAST CHALLENGES	▪ Track of the storm is uncertain, which could have significant implications for the location, amount, and type of precipitation, as well as the wind direction over the coastal waters.	
ADDITIONAL INFORMATION	▪ Stay tuned for additional information as the event draws nearer and the forecast confidence increases.	
NEXT BRIEFING	▪ By 6 AM Thursday, Dec. 3
