

OVERVIEW:

- A Wintry mix is expected Friday night into early Saturday morning north and west of the Boston to Providence corridor.
- Precipitation should start as a brief period of light snow, but transition to sleet and freezing rain before turning to plain rain

TIMING	<ul style="list-style-type: none"> ▪ Precipitation arrives Friday between 7pm and 11pm. Rain will end by Saturday mid-afternoon.
HAZARDS & IMPACTS	<ul style="list-style-type: none"> ▪ Untreated roads will become slippery from a light glaze of ice and minor accumulations of sleet ▪ Ice is not expected to cause any tree damage.
FORECAST CHALLENGES	<ul style="list-style-type: none"> ▪ Difficulty in knowing exactly how long it will be snow vs sleet vs freezing rain is directly related to what ultimately accumulates. More snow and sleet means less freezing rain/icing
NWS ALERTS	<ul style="list-style-type: none"> ▪ Winter Weather Advisories are in effect for all but coastal CT, and in MA, all of western, central areas and eastern MA mainly outside of I-95
NEXT BRIEFING	<ul style="list-style-type: none"> ▪ By 5 AM Friday
