

OVERVIEW:

- Very heavy rain and flooding is possible late Wednesday into Thursday.

TIMING

- Late Wednesday into Thursday

HAZARDS & IMPACTS

- Widespread heavy rain & flooding possible, especially urban/poor drainage flooding

FORECAST CHALLENGES

- How far north & east will shield of heavy rain track and upper limit of maximum rainfall (i.e., 2+, 4+, etc). At this early stage, the highest probabilities for heavy rain & flooding exist across CT, RI into southeast MA. However, given the heavy rain event is still 2-3 days away, the axis of heaviest rain is likely to shift between now & then.

POST-EVENT OUTLOOK

A drying trend develops Friday and into the holiday weekend.

NEXT BRIEFING

- By 6 AM Tuesday
