

Winter Storm February 12-13

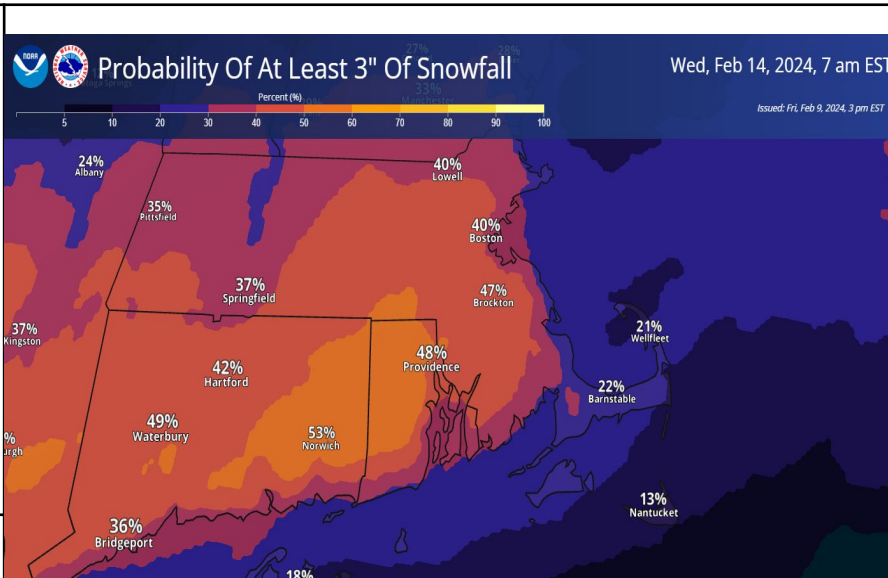

Boston/Norton, MA

WEATHER FORECAST OFFICE

OVERVIEW:

- Increasing confidence for a Winter Storm to impact the region, with the potential for significant snowfall
- Large uncertainty still exists regarding exact track and intensity of the storm, so it's difficult to determine specific details

TIMING	▪ Late Monday the 12th through Tuesday the 13th	
HAZARDS & IMPACTS	<ul style="list-style-type: none">▪ Potential for significant snowfall accumulations▪ Potential for coastal flooding during times of high tide	
NWS ALERTS	▪ None at this time, given the uncertainty with the forecast	
FORECAST CHALLENGES	<ul style="list-style-type: none">▪ Storm track and strength will have a big role in what we see. A northerly track over southern New England will produce more rain than snow. A track south of the region will bring snow everywhere, even along the coast. A further south track would only produce light snow along the south coastal areas.	
ADDITIONAL INFORMATION	<ul style="list-style-type: none">▪ Probabilistic Winter Storm Severity Index▪ Graphical Hazardous Weather Outlook▪ Image below depicts the probability of getting at least 3" of snow.	
POST-EVENT OUTLOOK	<ul style="list-style-type: none">▪ Dry, breezy with below normal temperatures Wednesday through Friday	
NEXT BRIEFING	▪ 6 am Saturday
