

For Southern New England

Decision Support Briefing

Issued at: 1:30 PM Friday June 20

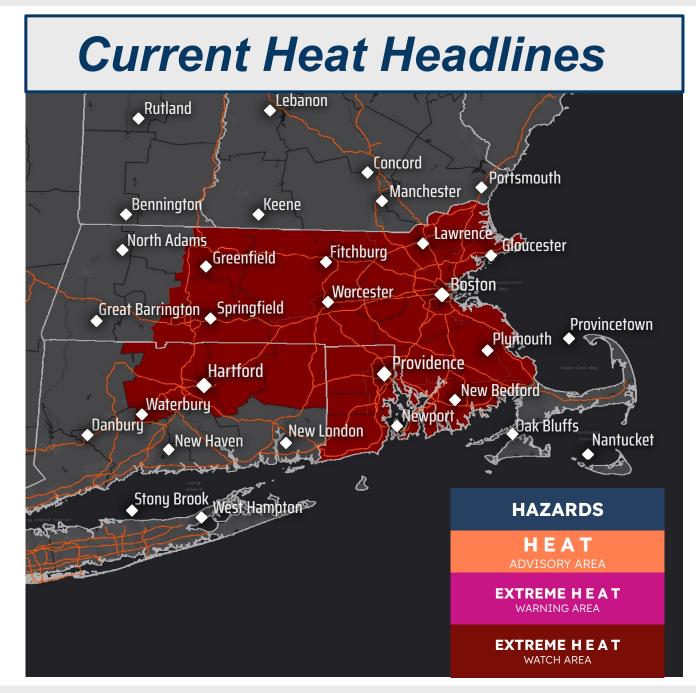

Key Messages

- Extended period of very hot and humid weather beginning Sunday
- Peak of the heat/humidity is Monday & Tuesday, with "Feels Like" temperatures above 105F in many areas
- Overnight temperatures remain above 70F, especially in urban areas

INFO Ne

New Information

- → First briefing
- Extreme Heat Watch issued for much of southern New England

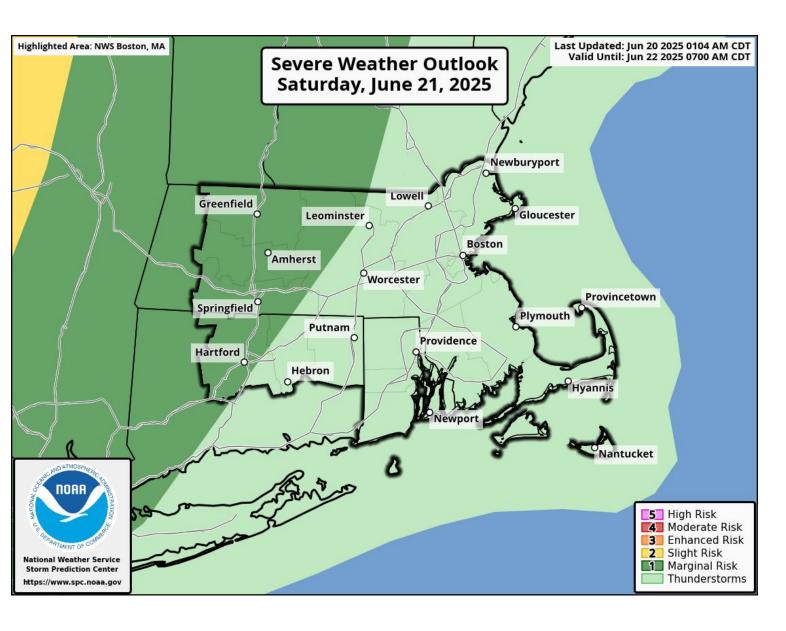

Hazard/Impact Summary

Hazard	Impacts	Location	Timing
Extreme Heat	Heat related health impacts for those most sensitive to heat and/or have no access to cooling options	All of Southern New England, though heat will be moderated on the Cape and Islands Urban areas will not substantially cool off at night	Sunday through Wednesday, with peak heat on Monday and Tuesday
Thunderstorms	Locally heavy downpours and lightning.	All of Southern New England	Potentially Saturday night into early Sunday, but considerable uncertainty exists in the forecast.

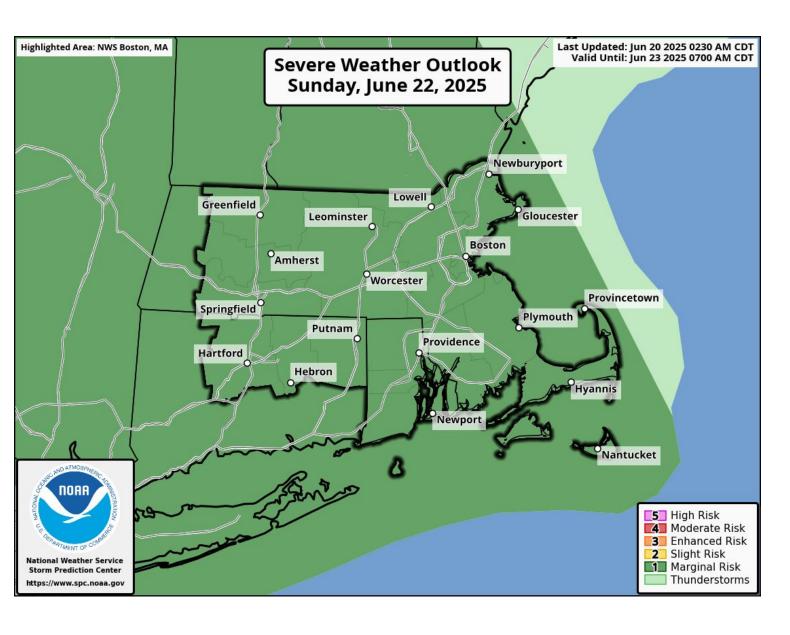

Severe Weather Outlook - Saturday

- Showers and thunderstorms possible Saturday evening and Saturday night
- Marginal (Level 1 of 5) Risk for severe thunderstorms across western areas
 - Means an isolated severe thunderstorm is possible

Severe Weather Outlook - Sunday

- Showers and thunderstorms possible early Sunday.
- Marginal (Level 1 of 5) Risk for severe thunderstorms
 - Means an isolated severe thunderstorm is possible

Created: 11 am EDT Fri 6/20/2025 | Values are maximums over the period beginning at the time shown.

Sunday's Temperature & "Feels Like" Forecast

 Forecast uncertainty with regard to the potential for showers and thunderstorms, so temperatures may not quite get as hot as currently projected.

Monday's Temperature & "Feels Like" Forecast

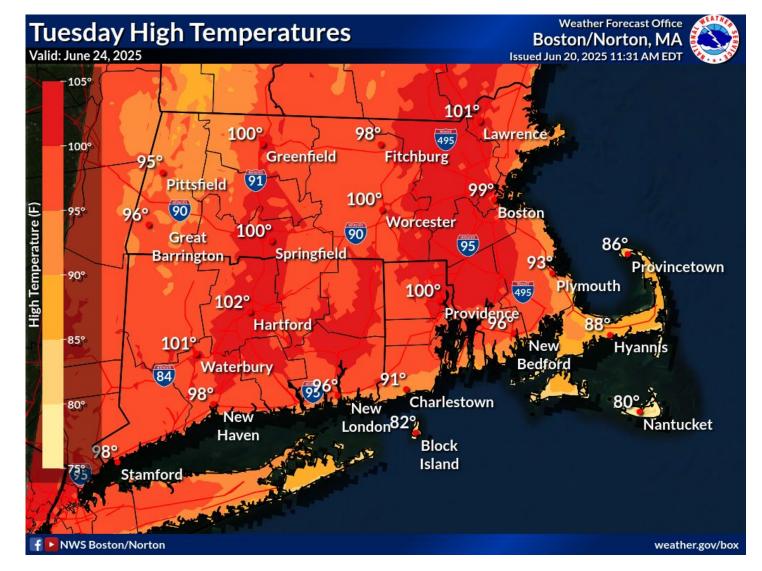

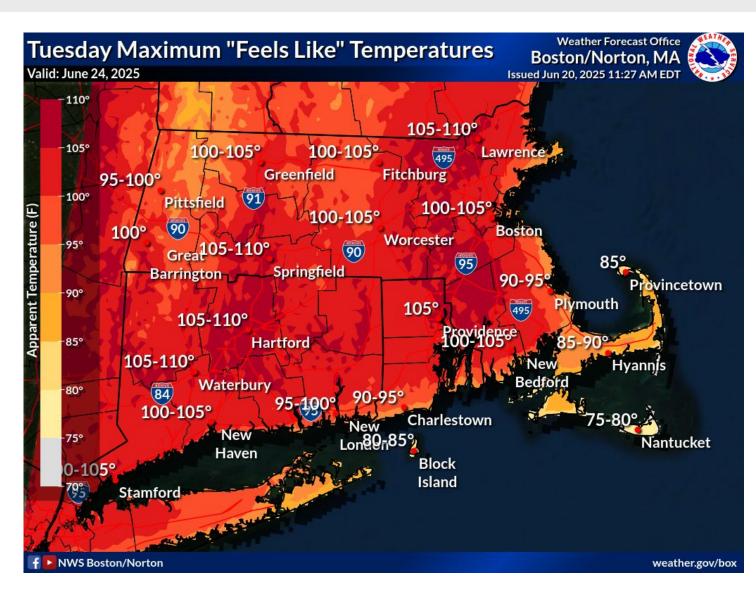

- Daily record high temperatures are possible.
- Urban areas will not drop below 70 degrees Monday night.

Tuesday's Temperature & "Feels Like" Forecast

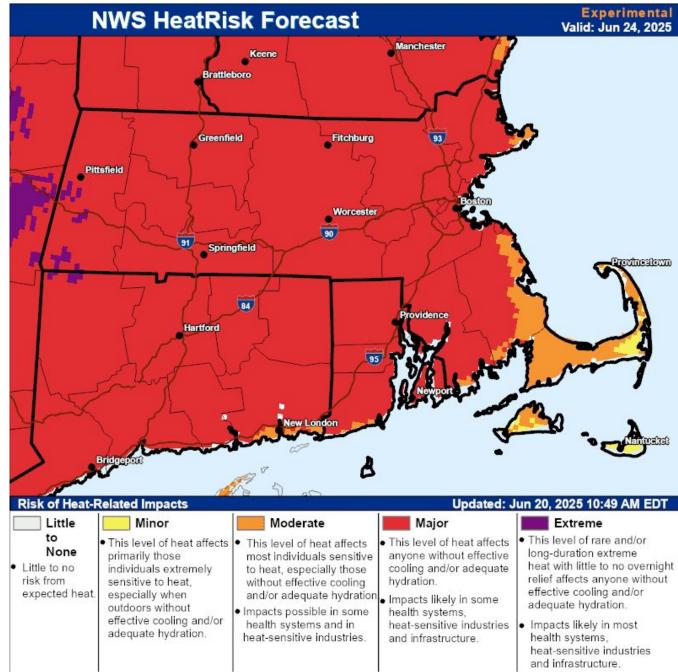

- Daily record high temperatures are possible.
- Urban areas will not drop below 70 degrees Tuesday night.

HeatRisk Forecast Depiction - Tuesday

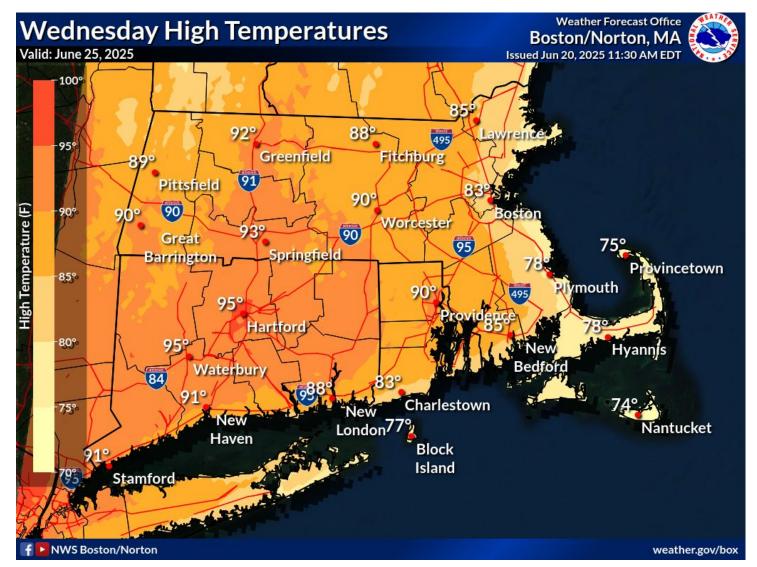

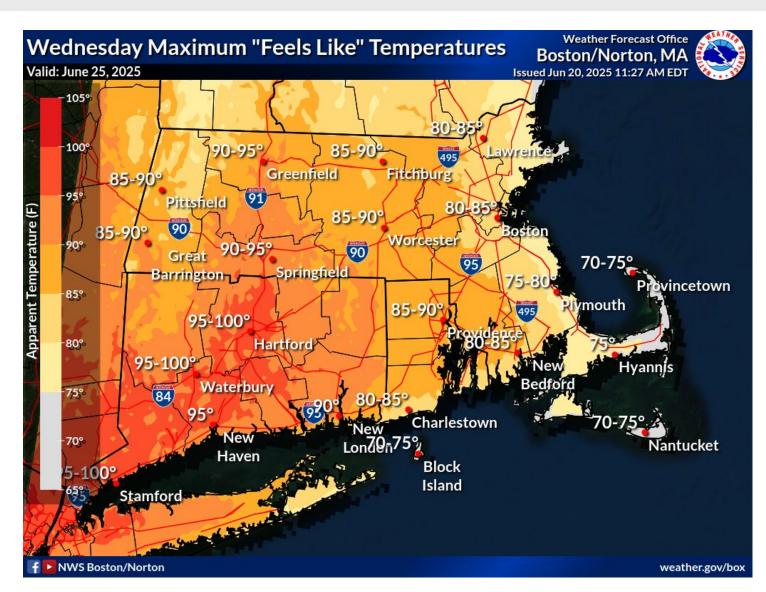

- HeatRisk classified as Major for most of the region
 - Anyone without access to effective cooling is at most risk from heat related health impacts
- Monday HeatRisk is very similar

More information on the <u>NWS HeatRisk Website</u>

Wednesday's Temperature & "Feels Like" Forecast

Heat starts to break, especially inland away from east coastal areas,
 Cape and Islands
