

# Coastal Storm Briefing

## For Southern New England

October 11, 2025  
8:30 AM

### Key Messages

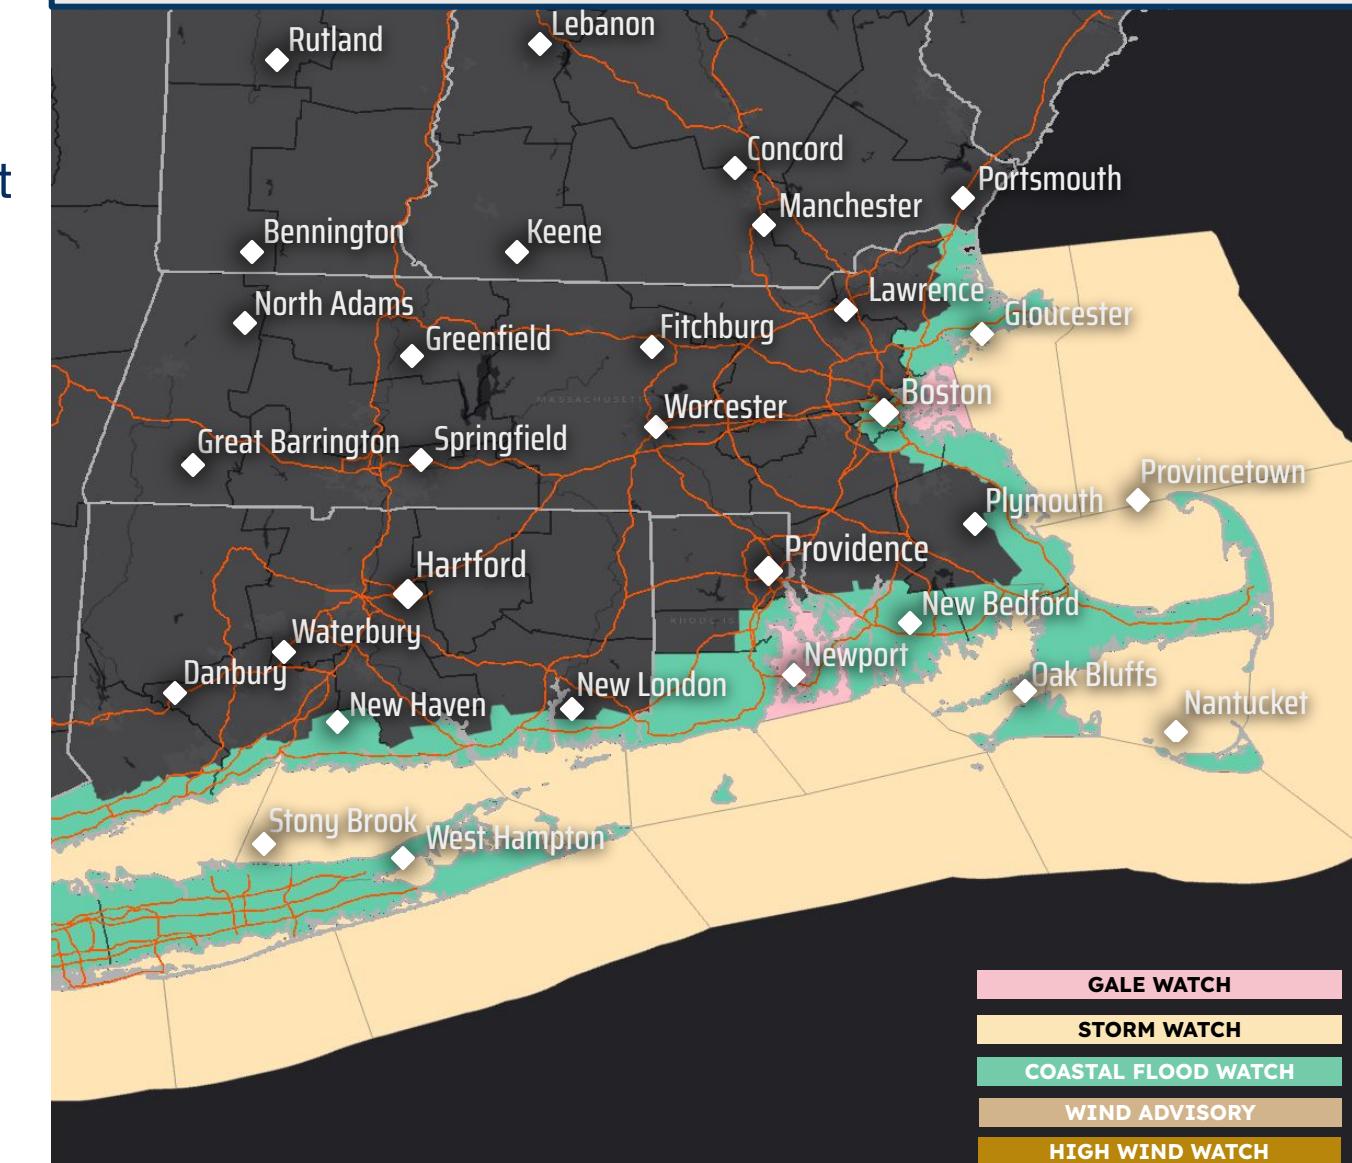

- A storm moving up the coast will bring potential for heavy rain, strong winds, and minor coastal flooding.
- **Timing:** Late Sunday into Monday. Winds peaking Sunday night and Monday morning.
- **Hazards/Impacts:** Downed branches/trees, power lines, and possible power outages. The strongest winds are expected on Cape Cod and the islands. Hazardous wind and sea conditions on the MA/RI coastal waters.
- Improving conditions mid week.

INFO

### New Information

- No significant changes.

# Maximum Wind Gusts

**October 11, 2025  
8:30 AM**

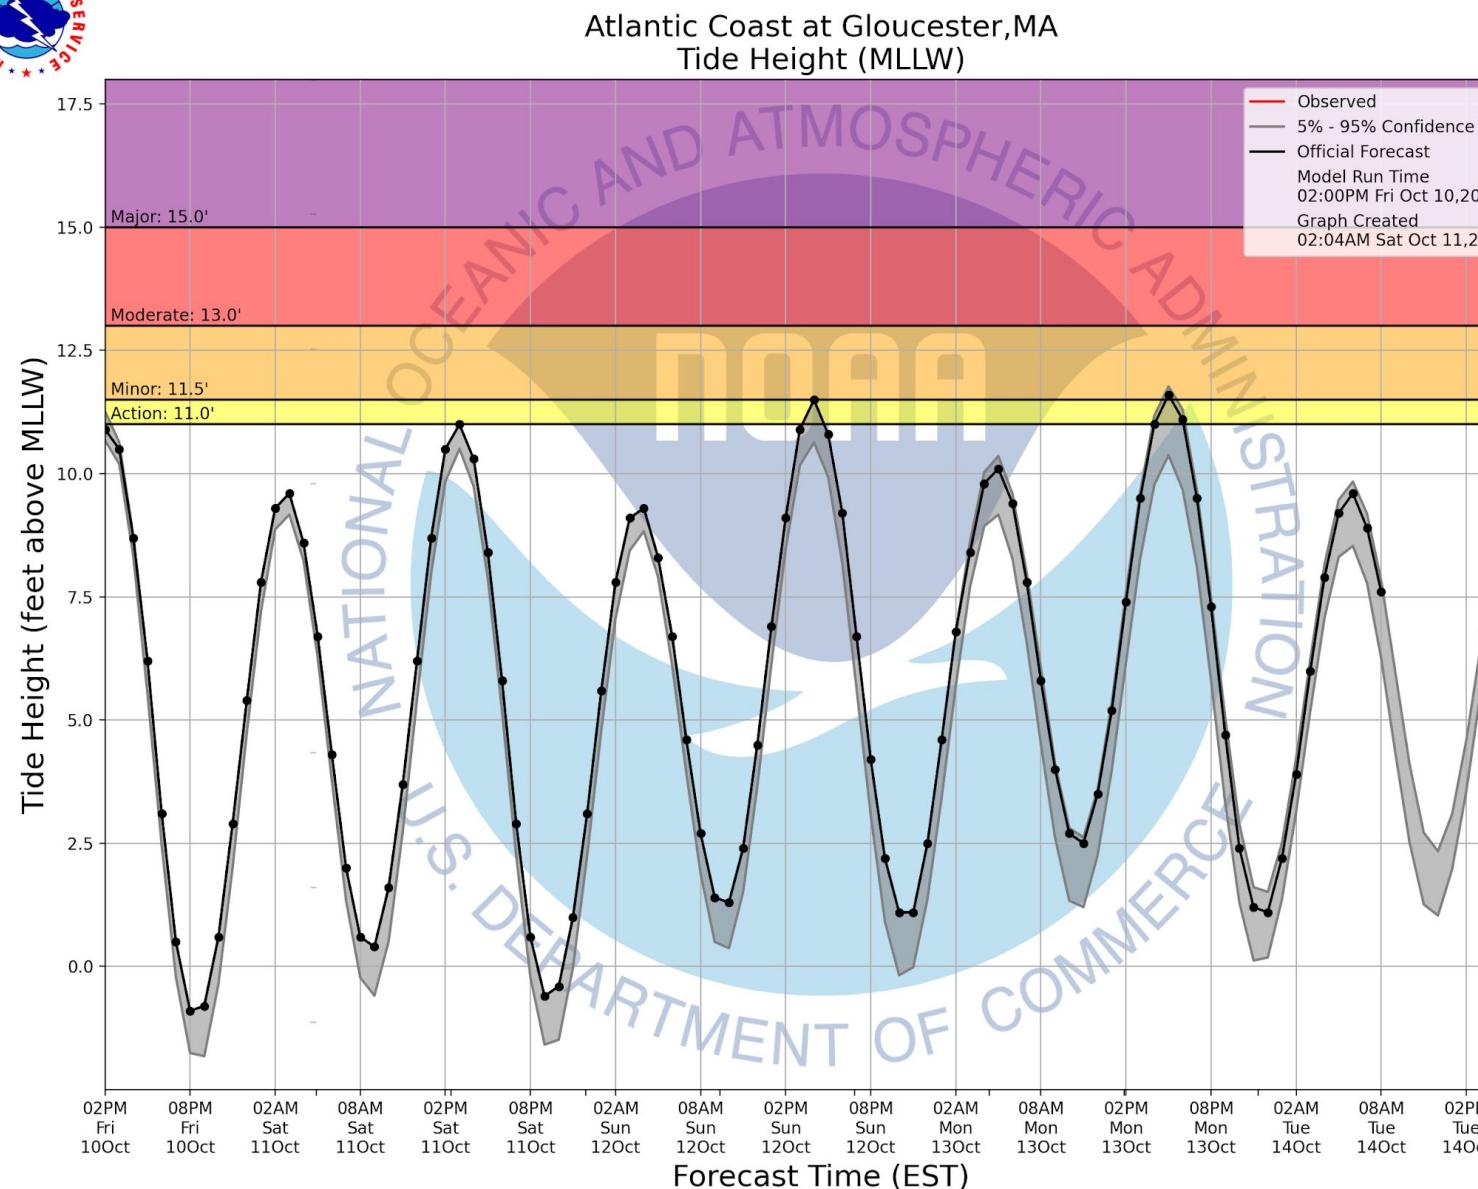

- Strongest wind gusts will occur late Sunday into Monday morning
- Wind direction will be primarily from the east
- Given trees remain fully leaved, winds may be strong enough to produce tree damage and power outages, especially along the south coast and islands.

# Gloucester - Water Level Forecast

October 11, 2025  
8:30 AM

- Sunday afternoon and Monday afternoon high tides have the potential to produce minor flooding.
- Gusty east winds and rough surf will result in some beach erosion
- NWS Boston [Coastal Flood Threat](#) page has additional information
- Latest forecast information for Gloucester is also [available here](#)

# Nantucket Harbor - Water Level Forecast

October 11, 2025  
8:30 AM

Nantucket Harbor at Nantucket, MA  
Tide Height (MLLW)

- Multiple tide cycles beginning Sunday afternoon through Monday evening are expected to result in minor flooding
- Localized moderate impact coastal flooding may develop if winds end up being stronger than currently forecast and/or overall storm surge is higher.
- Areas of minor to possibly moderate beach erosion expected, especially east facing beaches.
