Light Snow New Year's Eve to New Year's Day

Key Messages

What: Widespread accumulating snow into early Thursday morning. This may be followed by a few snow squalls Thursday morning.

When: Bulk of the steady snow arrives between 10pm - 2am from west to east. Steady snow ends between 5 - 7am but a localized snow squall will remain possible through late morning.

Amounts:

- 1-4 inches for most areas.
