

Moderate Snow Arrival Timing

February 9, 2026

1:51 PM EST

Forecast For: Tuesday afternoon and Evening

Key Messages

- A band of moderate and briefly heavy snow arrives from NW to SE Tuesday night.
- Snowfall rates between 0.5" and 1" per hour are expected with this band.
- Higher snowfall rates will last between 1-3 hours as the band moves SE.
- Snow may mix with rain across the Cape and Islands.
