- Rain + **- Snow +**

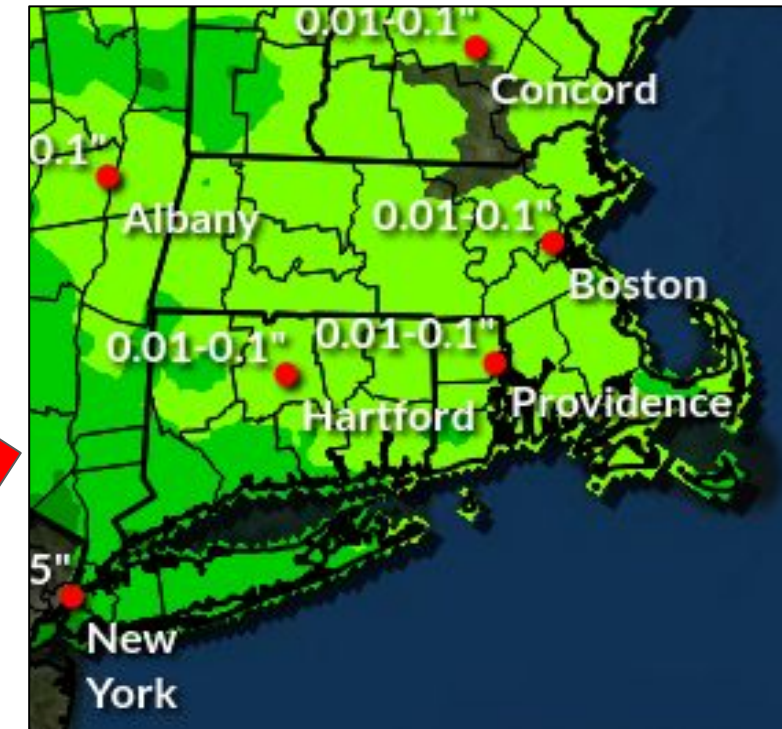

7 Day Precipitation Forecast

April 20, 2026
10:00 AM

- No significant rainfall this week
- Mostly 0.10" or less

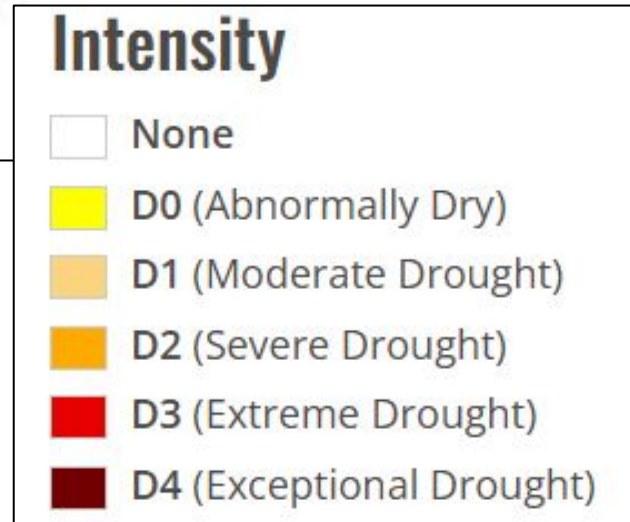

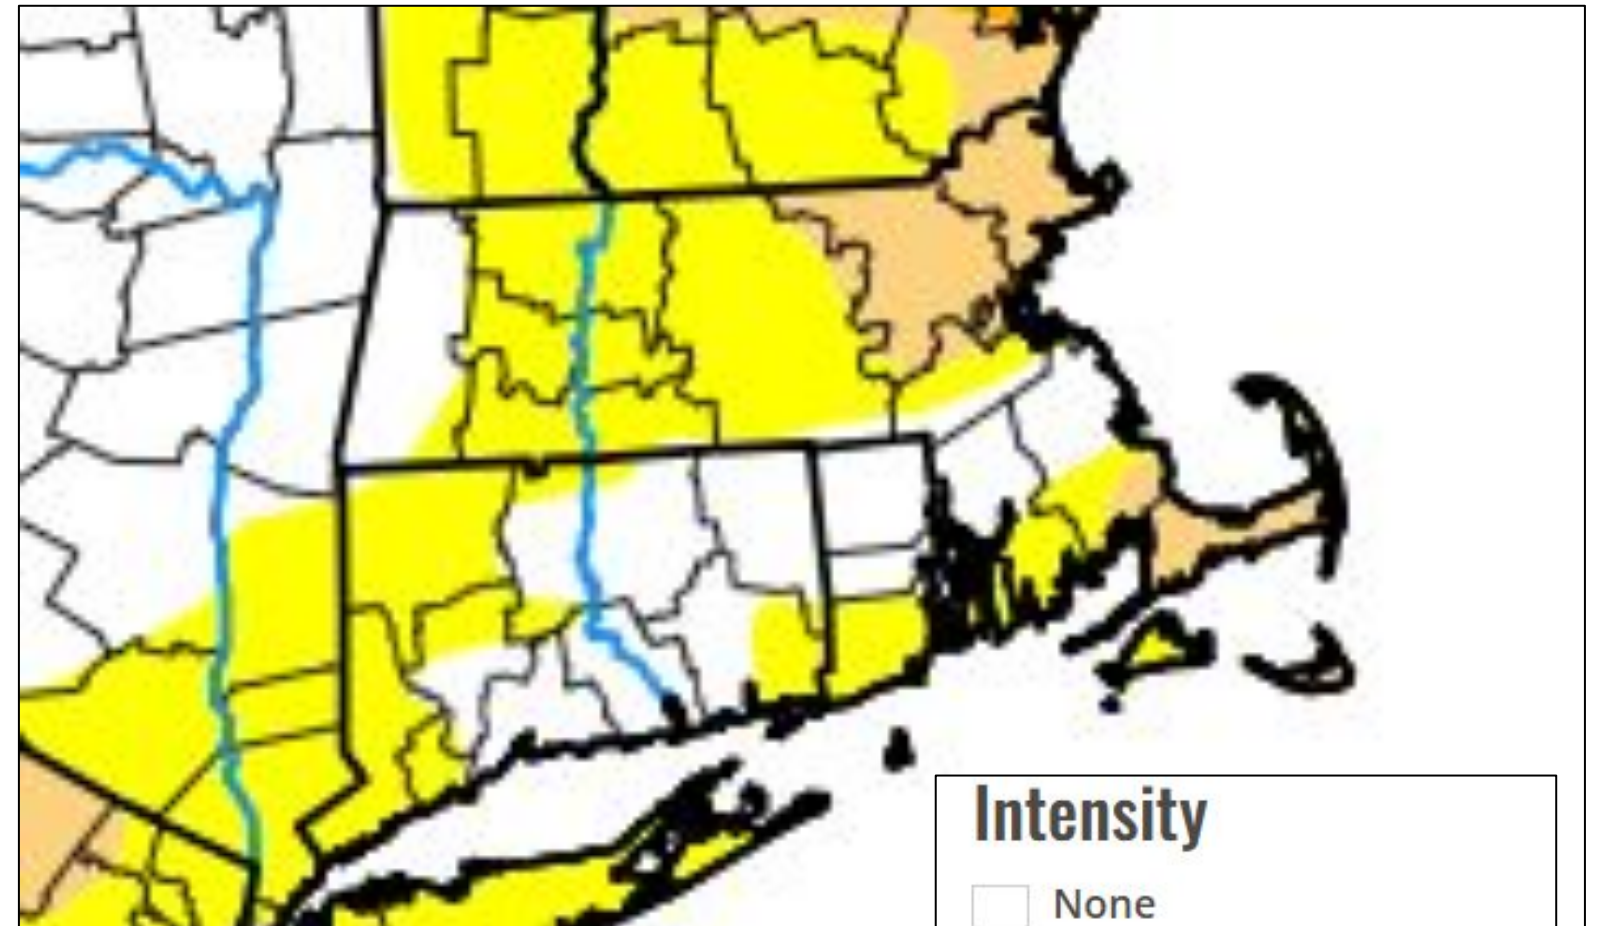

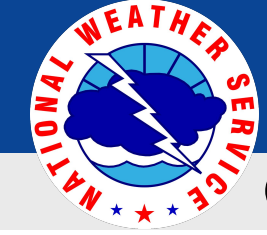

US Drought Monitor

April 20, 2026
10:00 AM

- No significant change since last week.
- Moderate drought conditions persist across northeast MA, Cape Cod, and Nantucket.
- Little improvement expected this week given a lack of widespread and significant rainfall.

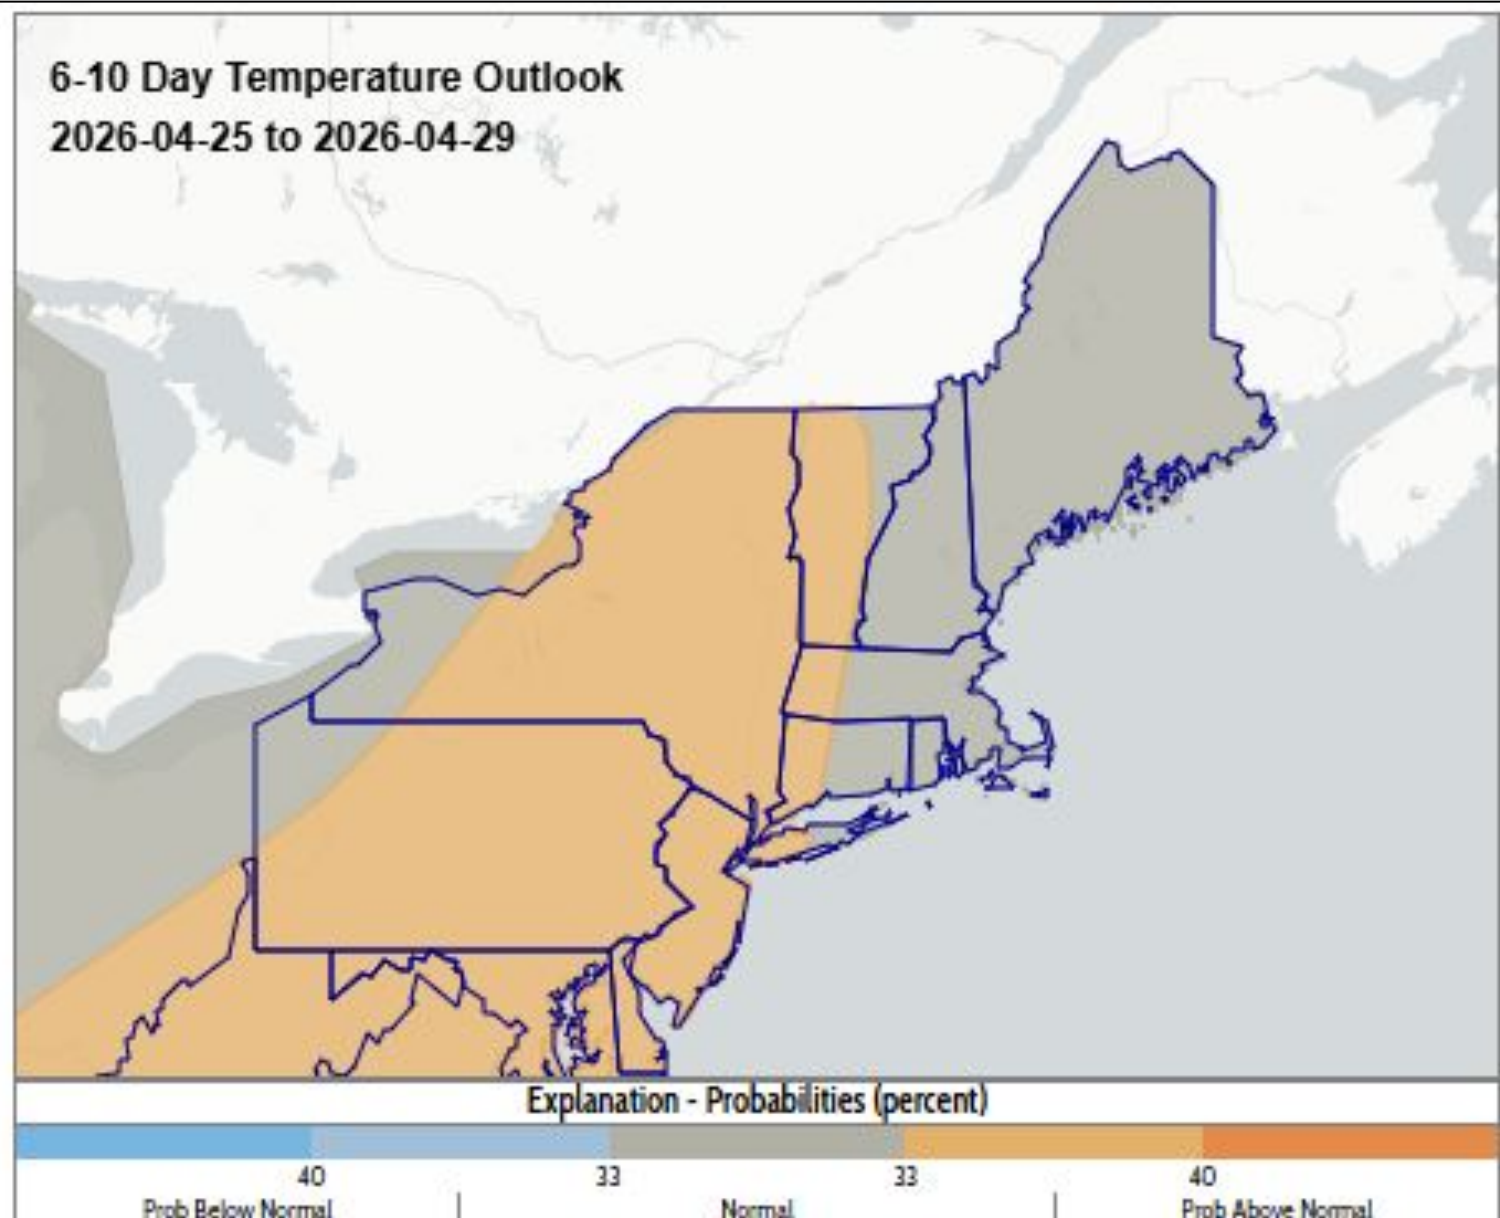

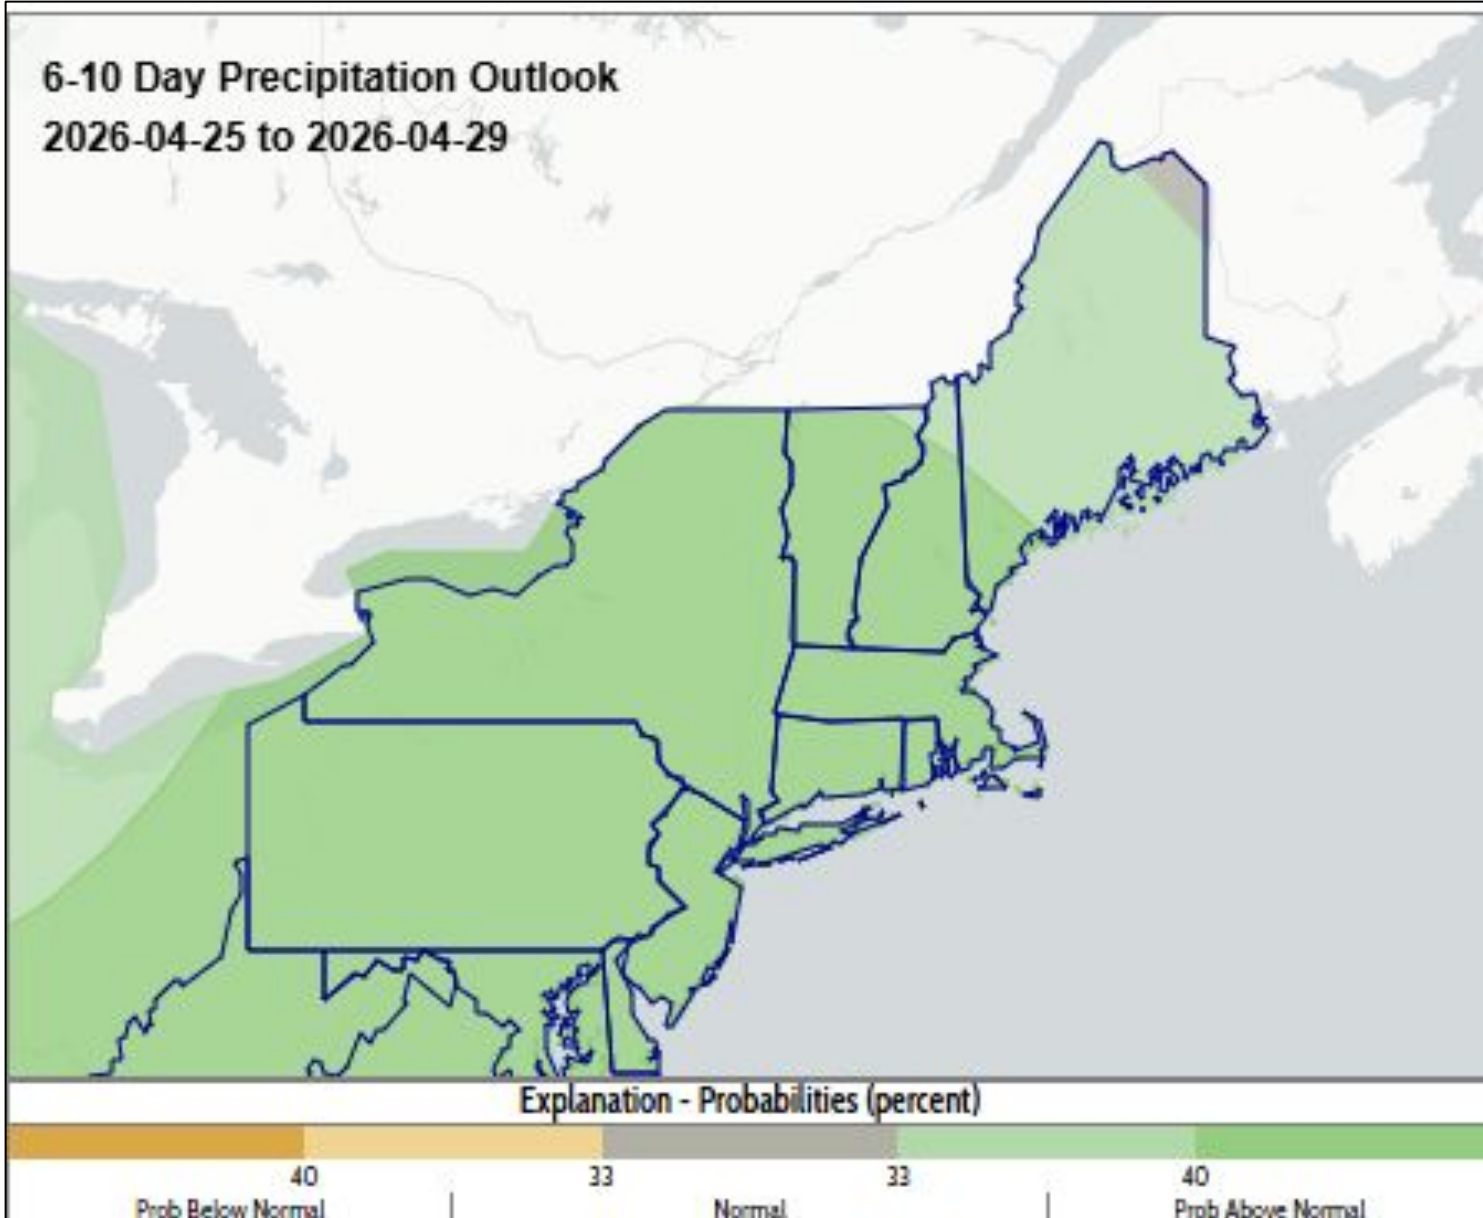

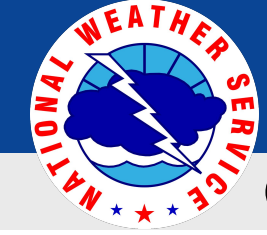

6-10 Day Outlook: April 25-29

April 20, 2026
10:00 AM

Odds favor above average precipitation but no clear signal for above/below normal temperatures

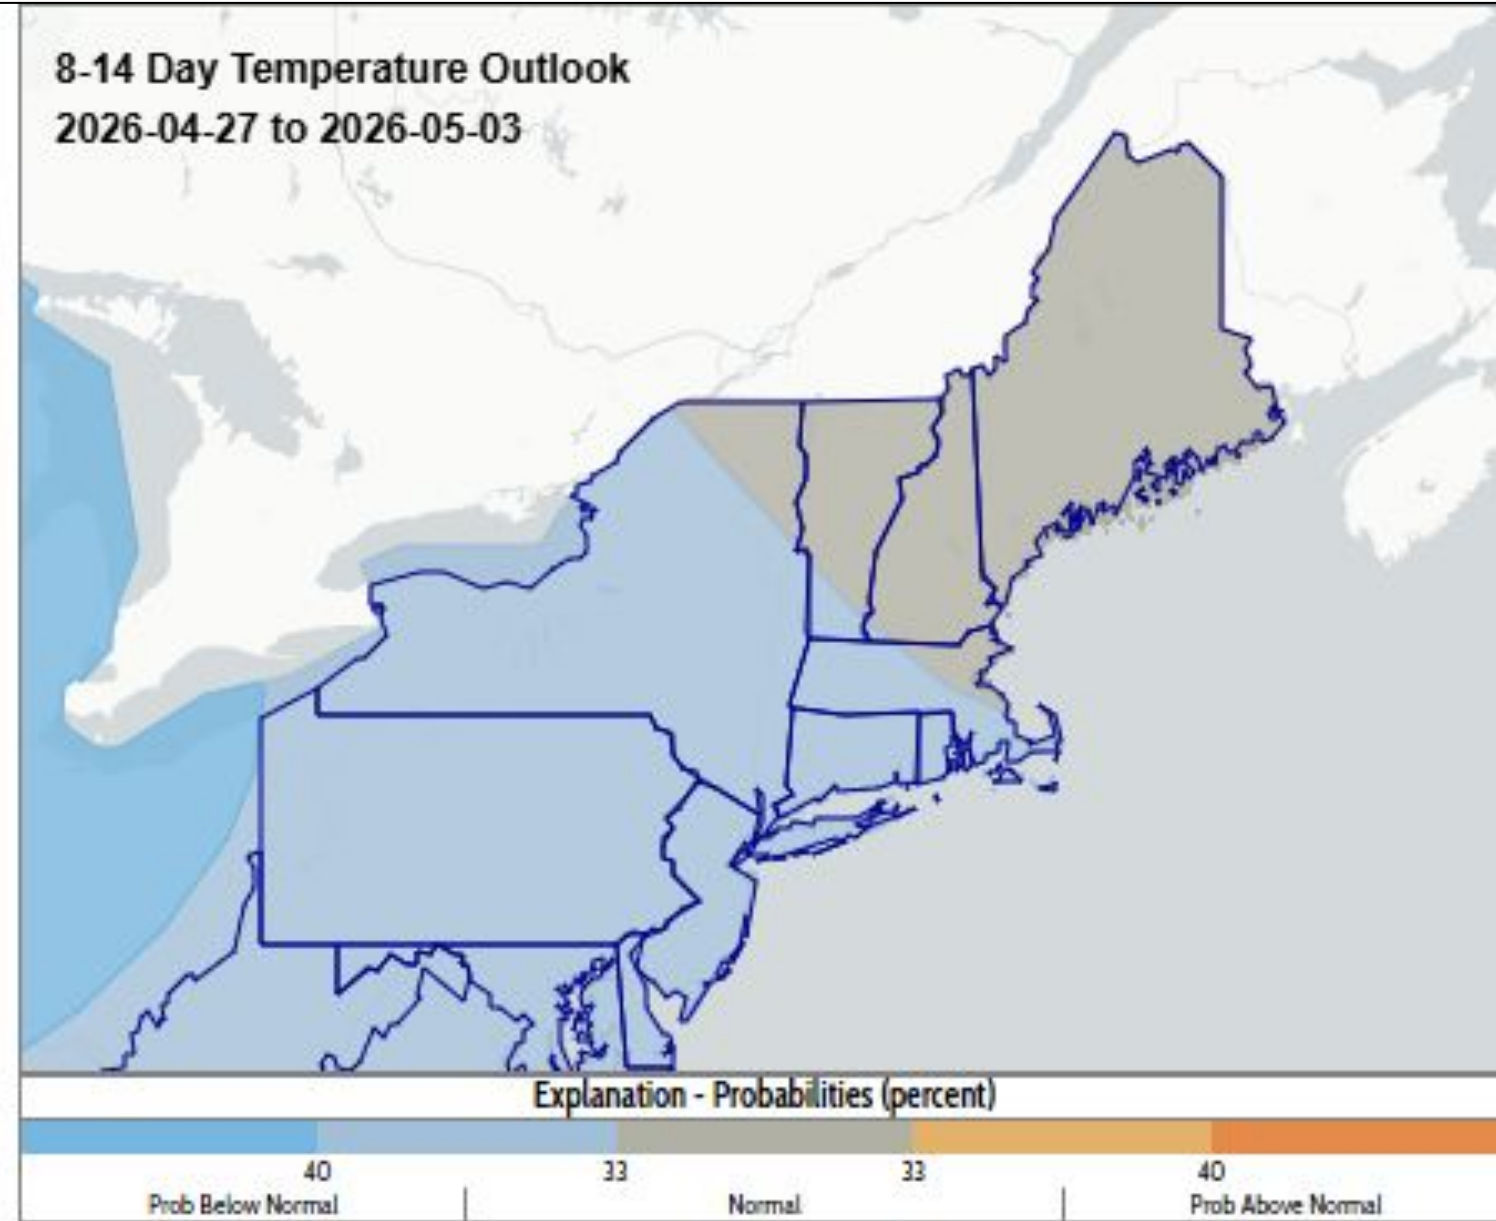

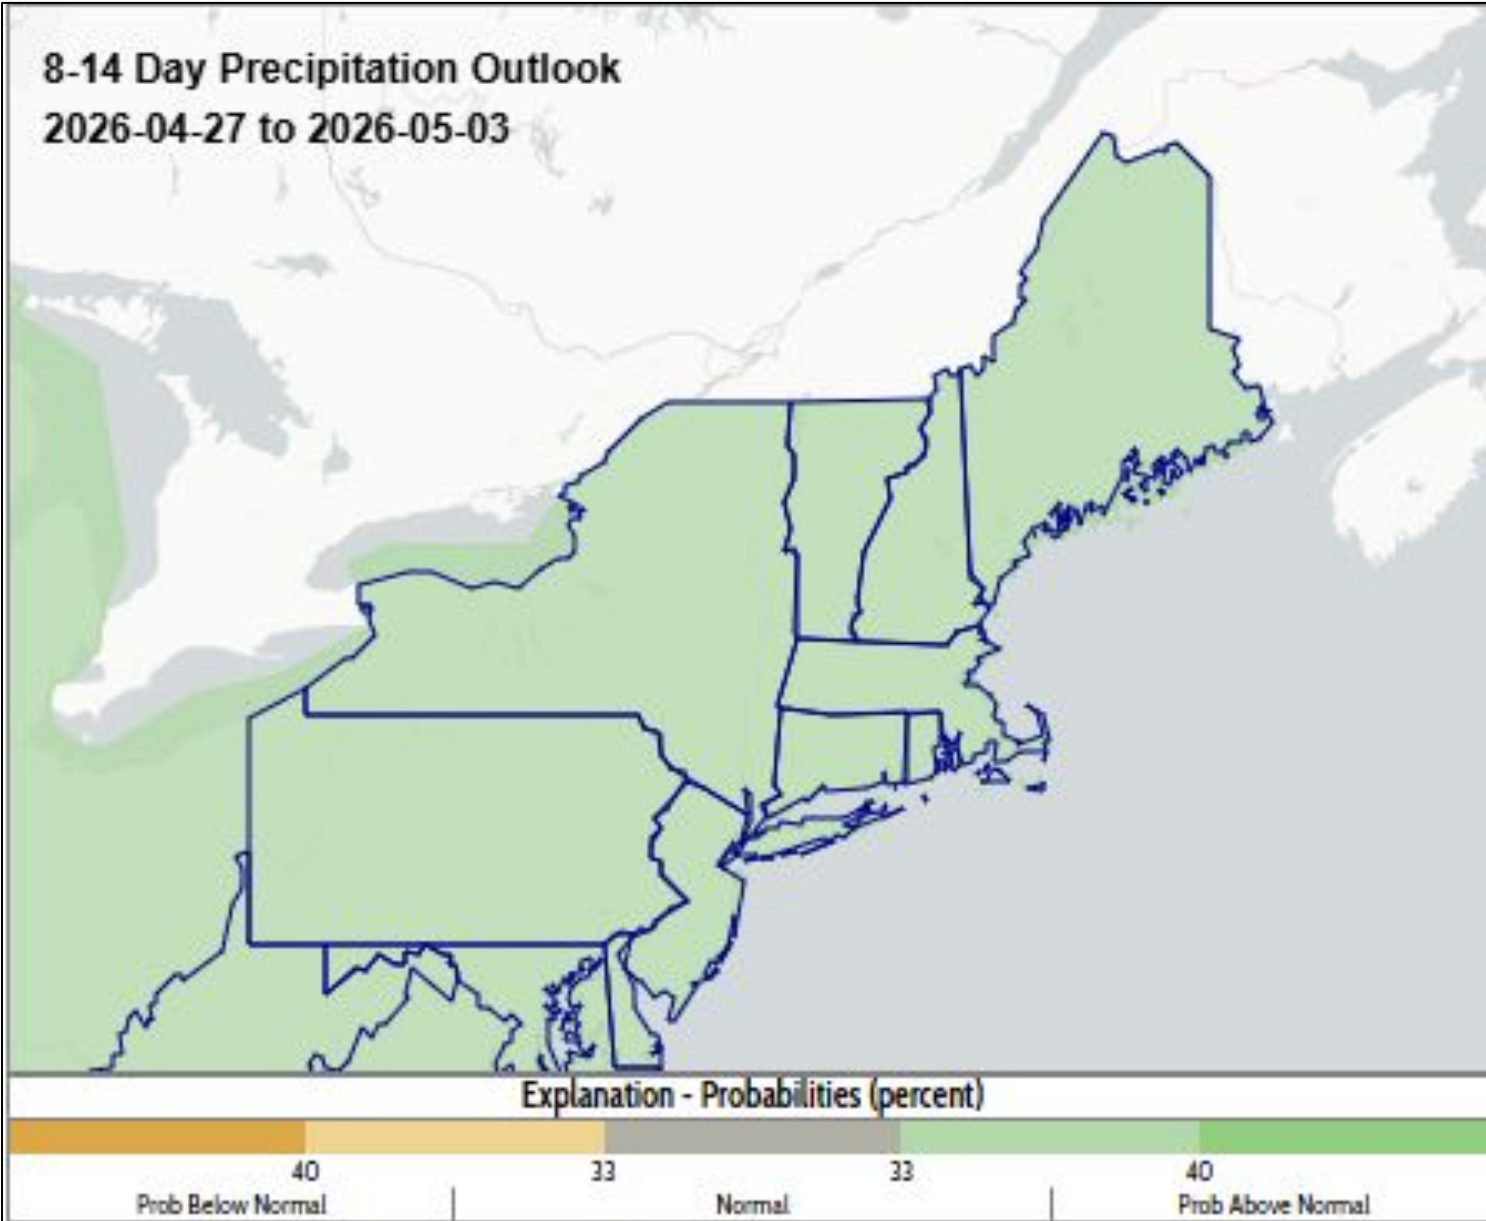

8-14 Day Outlook: April 27-May 3

April 20, 2026
10:00 AM

Odds slightly favor above normal precipitation and cooler than average temperatures

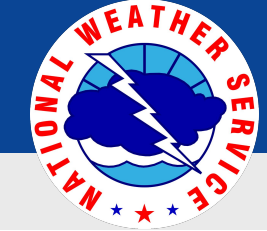

NWS Boston Monday EM Briefing
